

WALKALOOSA HORSE ASSOCIATION

Instructions to fill out Registration Application form

To qualify for Walkaloosa registration, horses must show Appaloosa coloring that is visible from a ten foot distance **and** must demonstrate the ability to perform an intermediate gait (other than the trot) such as the rack, foxtrot, running walk, single-foot, pace, etc.

The "Gait" must be certified by a veterinarian, horse show judge or professional horse trainer on the application form. Or you may send in a performance video that clearly shows the horse gaiting; please refer to the Rules for Registration Video for details.

The application form has two pages; please fill out both pages completely. The first page of the application has an area for the horse's registered name; list two additional name choices in case your first choice is not available. WHA will give recognition to both parent's pedigrees, so please provide the sire and dam information as well.

Please submit three clear, quality color photos that show the horse's full left, right and front face views, including feet and send in with the registration fee in check or money order to the address shown above.

If your horse does not show the required Appaloosa color characteristics **or** does not gait, but is of **verifiable** Appaloosa and Gaited Horse blood, it would then be eligible for identification (ID) papers only. As foals grow older, it's not uncommon for them to change colors ("color out") or to perform an intermediate gait after being broke to ride. If that is the case for your horse, once it has colored out or starts to gait, you would then be eligible to apply for Advancement to Regular Registration; please refer to the Advancement to Regular Registration form.

If you have any questions while filling out the paperwork, feel free to contact us at (805) 995-1894 or at contact@walkaloosaregistry.com.
